

WARNING

- Follow instructions carefully.
- Do not use on areas that have been recently shaved, tweezed or waxed.
- Do not apply on inflamed, chapped, irritated, broken or sunburned skin.
- Do not apply on breasts or vaginal areas.
- Do not use on eyebrows or near eyes. In the event of contact with eyes, rinse immediately with plenty of water and seek medical attention.
- Replace tube cap quickly to avoid drying out cream.
- Avoid the sun or tanning for 8 hours before or after using SurgiCare Body Cream.
- Do not apply soaps, deodorants, or astringents for two hours before and after treatment.

1. Cleanse
2. Remove
3. Soothe

Infused with
Lavender, Aloe
& Arnica

FOR BEST RESULTS: Please read this entire booklet carefully before beginning your treatment.

instruction booklet

SurgiCare® Body Cream

Important: New Users, Please Test First

Before using SurgiCare Body Cream, please perform a patch test at least 24 hours before actual use to determine whether you are allergic to any of its ingredients.

- Apply to one-inch square area on the lower part of your ankle. Leave on for 4 minutes, but no longer than 8 minutes.
- Remove with damp cloth or tissue. Rinse completely with lukewarm water.
- Apply SurgiSoothe™ Replenish Lotion. If redness or irritation develops within 24 hours, discontinue use. You may be sensitive to one or both products and should not use them. If no irritation appears, you may proceed with use.

SOOTHING HAIR REMOVAL

1. CLEANSE

Use the specially formulated Cleanse & Prep Gel to clean skin. Pat skin dry.

2. REMOVE

Apply a small amount of SurgiCare's rich, creamy formula with your fingertips onto your skin. Smooth cream evenly and generously. Do not rub in.

Wait 4 minutes but no longer than 8 minutes before stepping into shower. Gently rub and rinse off cream using SurgiCare Shower Puff.

3. SOOTHE

Apply calming SurgiSoothe™ Replenish Lotion to restore skin's normal pH balance and help retain skin's natural moisture.

Helpful Hints

- For best results, apply a thick, even layer to clean, dry skin.
- Do not rub in.
- If first application does not remove hair completely, wait 48 hours before re-treating.
